

DOL- VOCATIONAL TRAINING

The Vocational Training workshop offers a unique opportunity to identify skills, increase awareness of training and credentialing programs, and develop an action plan to achieve career goals.

Service members and spouses who attend the U.S. Department of Labor's two-day CEPT workshop complete a personalized career development assessment of occupational interests, aptitudes, and work values. These assessments will present workshop participants with a variety of tailored job recommendations aligned with their interests and aptitudes.

Participants will learn to narrow their career focus by establishing achievable career goals and development strategies. Workshop facilitators will guide participants through a variety of career considerations including labor market projections, education, apprenticeships, certifications, and licensure requirements.
